SharePoint Has Been Doing AI for Years

- Search
 - Semantic ranking
 - Intent understanding
 - People and content relevance
- OCR
- Recommendations
 - SharePoint Home
 - Trending around me

SharePoint Has Been Doing AI for Years

Built-in Syntex AI capabilities

Autofill Columns: AI-Powered Metadata

What it is:

- AI populates metadata automatically

What it extracts:

- Dates, names, document types

Why it matters:

- Eliminates manual tagging
- Improves search & AI results

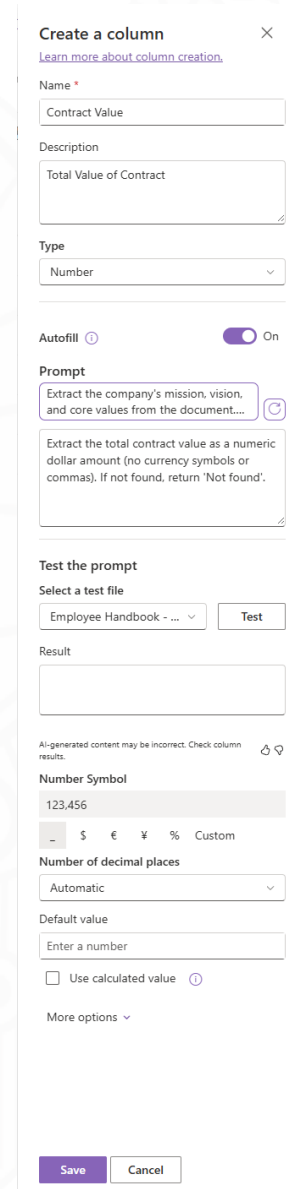

Existing files and new files

Can create or add to existing column

SharePoint Premium (Syntex) must be enabled

PAYG must be configured

Pay per document processed

Create a column ✕

[Learn more about column creation.](#)

Name *
Contract Value

Description
Total Value of Contract

Type
Number

Autofill ⓘ ☒ On

Prompt

Extract the company's mission, vision, and core values from the document...

Extract the total contract value as a numeric dollar amount (no currency symbols or commas). If not found, return 'Not found'.

Test the prompt

Select a test file
Employee Handbook - ... ▼ Test

Result

2026 MEDIEVAL EDITION

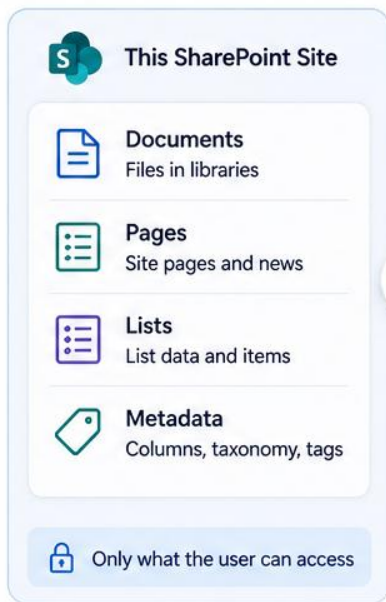

AI in SharePoint

How SharePoint AI Works

Content > Context > Orchestration > Experience

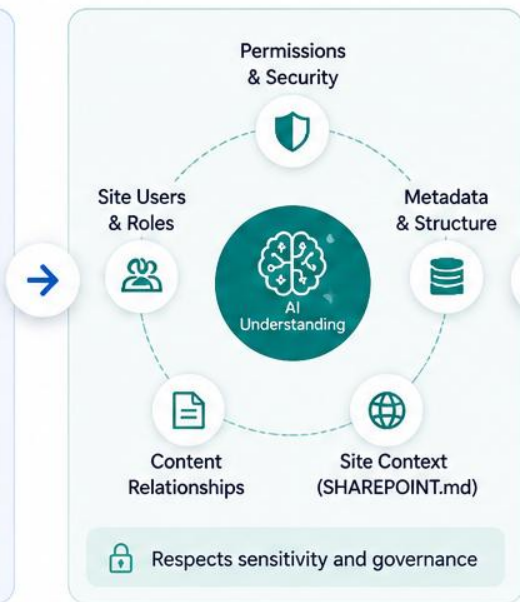

1 Content

The AI is grounded in the content of this SharePoint site.

2 Context

The AI uses the rich context around your content.

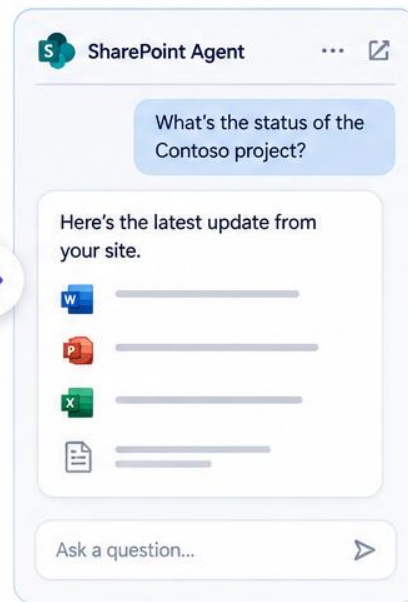

3 Orchestration

The AI selects the right tools, applies logic, and takes action.

4 Experience

Delivered in the flow of work where you already are.

Secure. Compliant. Trusted.

Your data is never used to train foundational models.
Enterprise-grade security at every step.

Respects
permissions

Honors sensitivity
labels

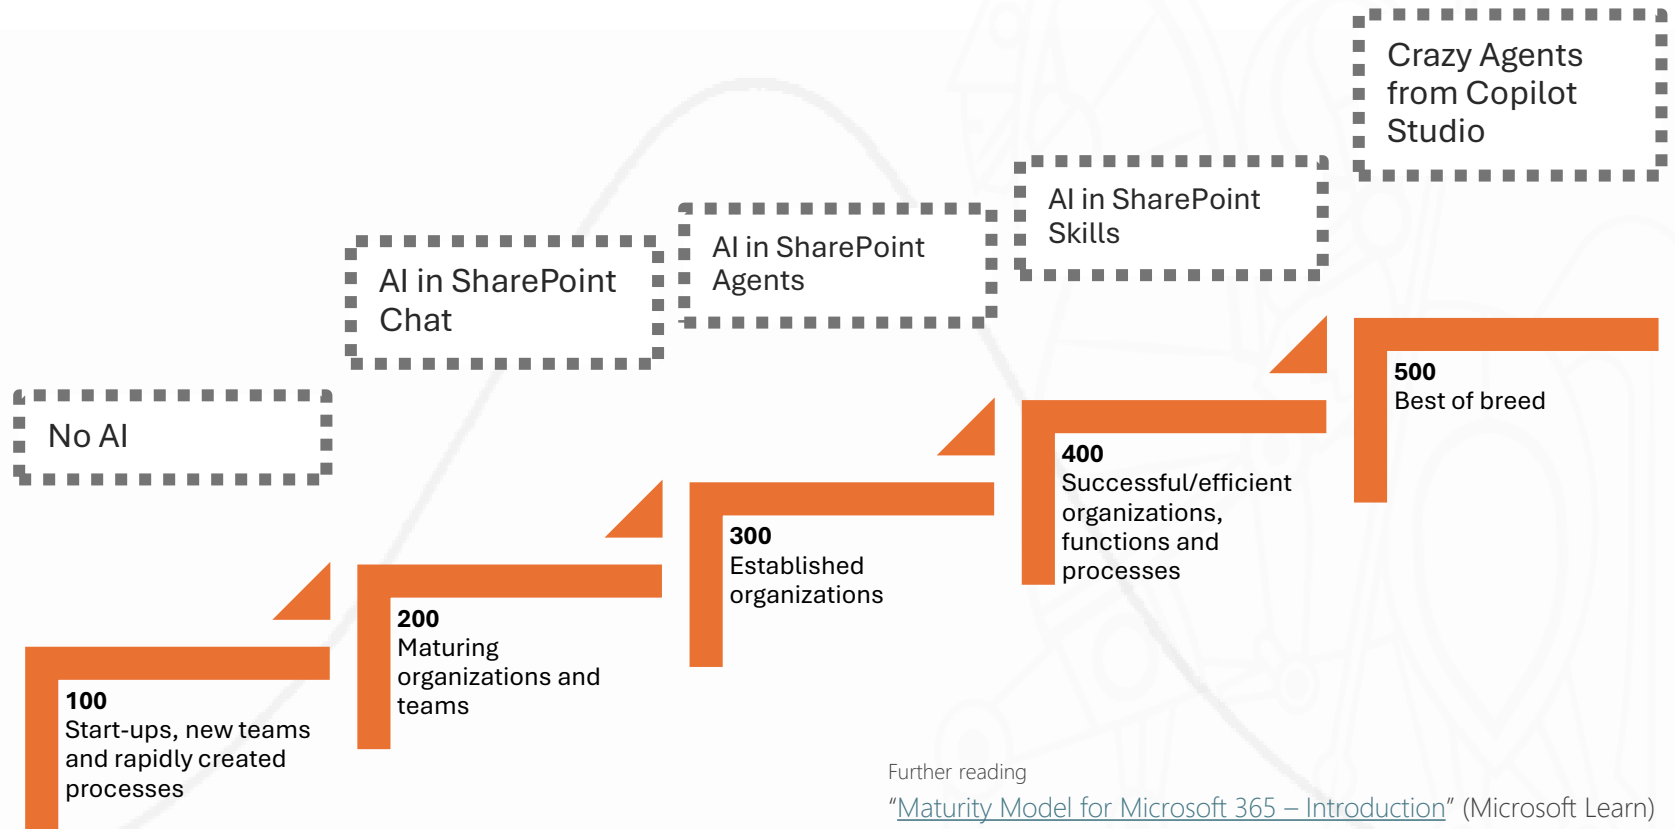

Follows governance
policies

Auditable and
enterprise ready

SharePoint AI Maturity

AI in SharePoint

- Previously SharePoint Knowledge Agent
- Copilot helping Copilot
- Helps get your content more organized for AI
- Document libraries and lists

What does it do?

- Sites and Pages
 - Improve your site
 - Create, refine, and author pages
- Libraries
 - Create autofill columns
 - Automate workflows
 - Create views
- Files
 - Answer questions
 - Summarize
 - Compare files
 - Audio overview
 - Create FAQ

Documents

AI actions Add shortcut to OneDrive Forms Create or upload

All Documents

Name	Document category	Policy effective date...
Employee Handbook - Updated Pet Policy.docx	Handbook	Not found
Employee Handbook.docx	Handbook	Not found
Helen from HR.agent		
Payroll_Dates_2024_2025.xlsx	Payroll	Not found
private.txt	Payroll	Not found
PTO Policy.docx	HR policy	Not found
Security Presentation.pptx	Security	2/29/2024 00:00

Suggest a few columns to organize this library

SharePoint

I'll generate suggestions about your library's current columns and files to make good suggestions.

Dislike

Now I have the library details. Let me analyze the documents and suggest some useful columns.

Like

Document category

Suggested column

Autofill prompt

Identify the main purpose or topic of... Show more

Keep Edit Delete

Policy effective date

Suggested column

Autofill prompt

Extract the effective date of the policy... Show more

Keep Edit Delete

Confidentiality level

Suggested column

Autofill prompt

Determine the confidentiality or sensitivity level of... Show more

Keep Edit Delete

Review column suggestions

3 columns remaining

Keep all

Like

Here are a few column suggestions. Keep the columns you want and remove the ones you don't. You can also edit a column's autofill prompt or adjust its settings to change how it works.

Ask a question about Documents

AI-generated content may be incorrect

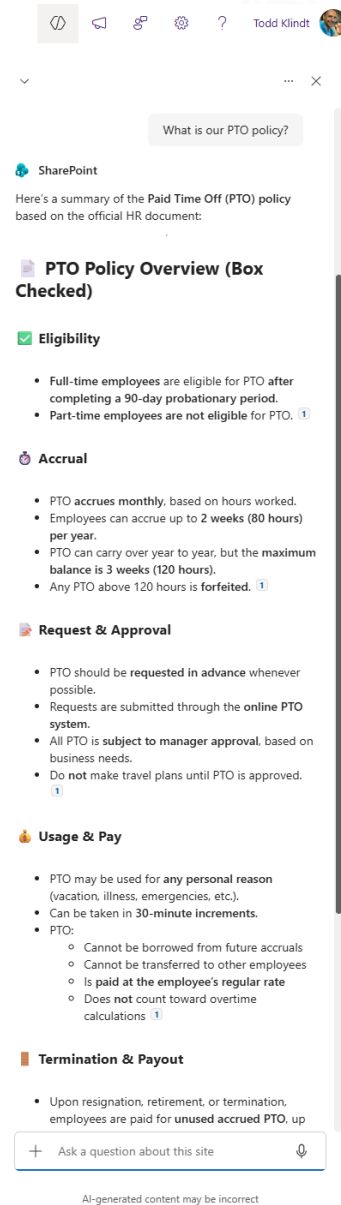

2026 MEDIEVAL EDITION

Demo AI in SharePoint

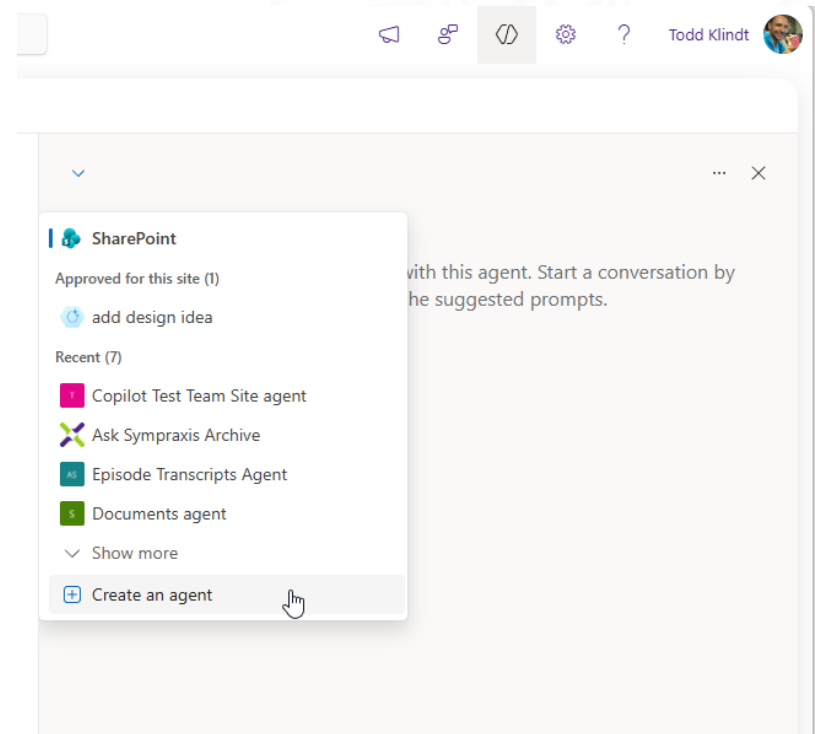

SharePoint AI Chat

- Chat with Your Site
- Ask questions
- Get grounded answers
- No need to open documents
- Respect permissions

SharePoint AI Agents

- AI assistant scoped to a site or library
- Grounded in specific content
- Tuned for a purpose
- Portable/reuseable

2026 MEDIEVAL EDITION

Let's See It in Action

SharePoint Agent Demo

SharePoint AI Skills

- Reusable processes
- Built with natural language
- Analyze content
- Generate outcomes

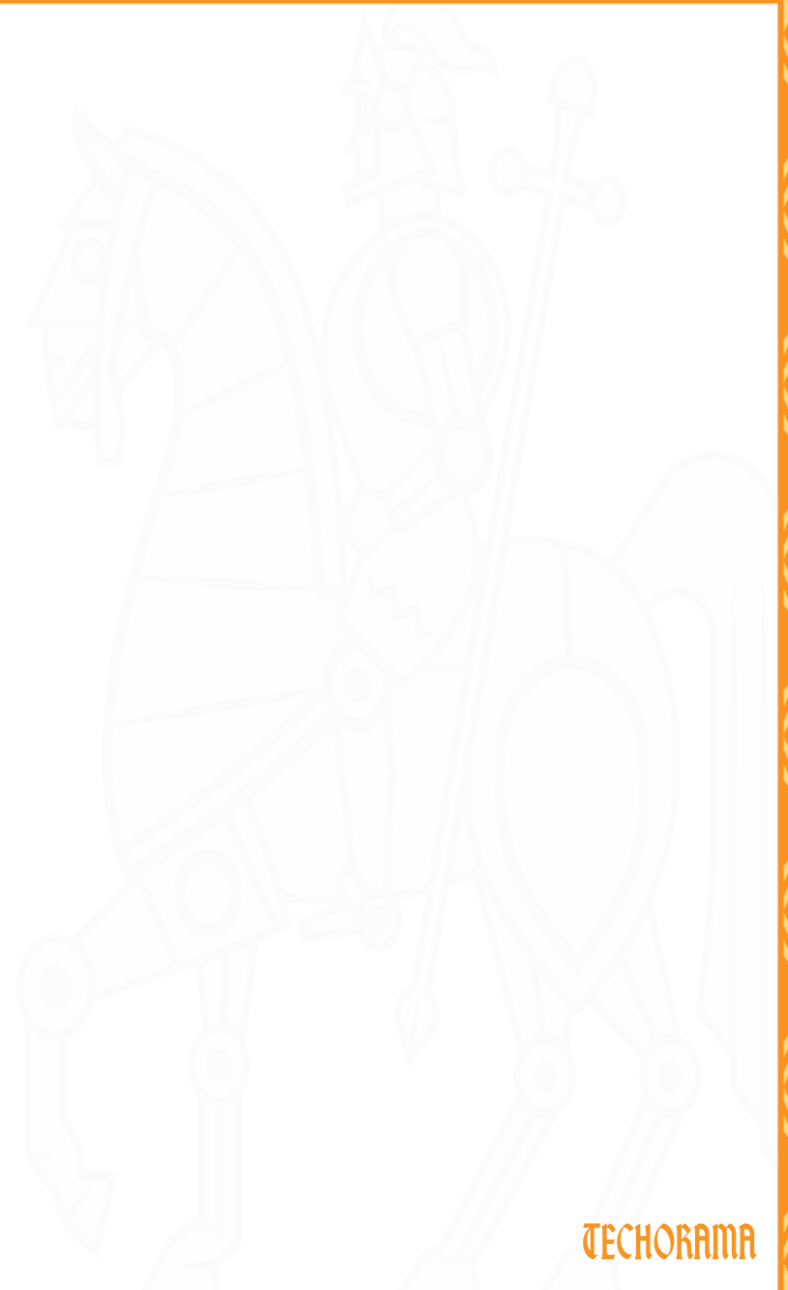

2026 MEDIEVAL EDITION

Now Let's Do Some Work

Skills Demo

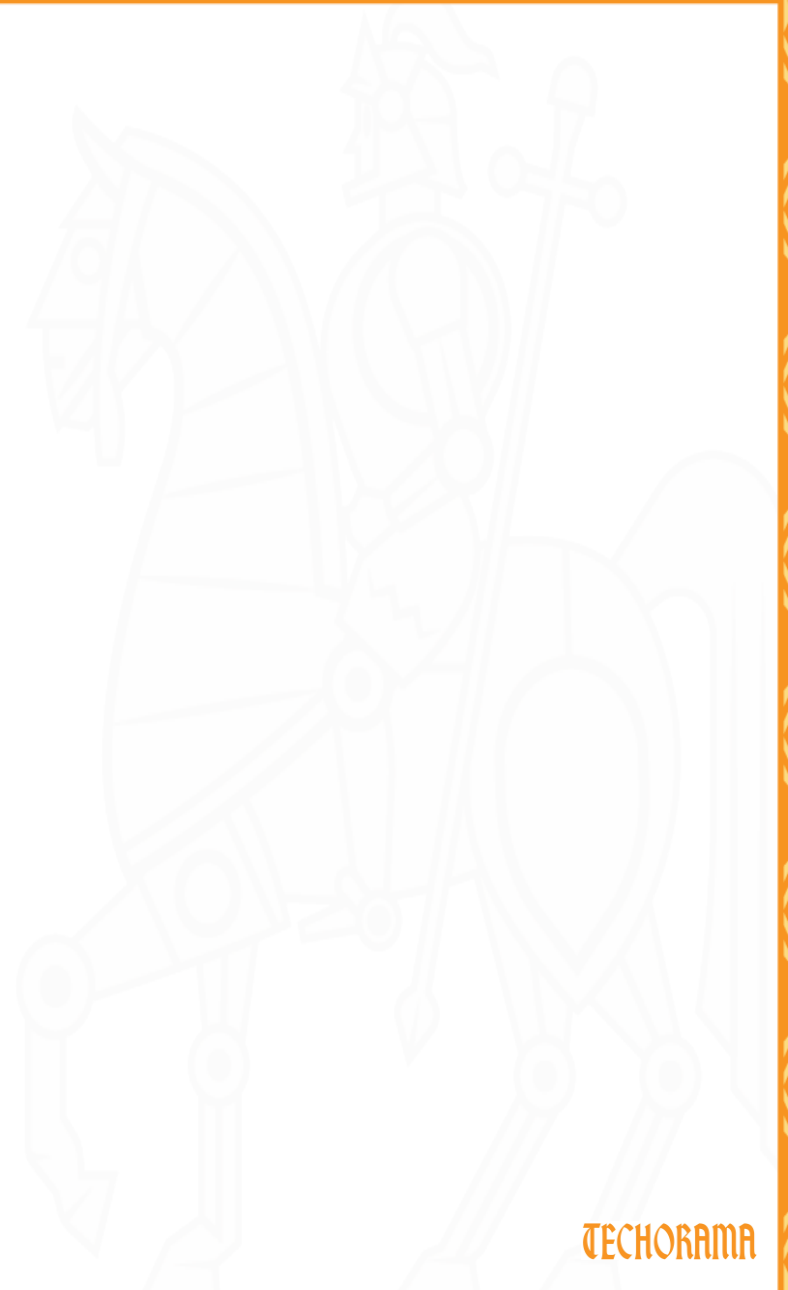

Demo: Contract Review

- Extract
- Validate
- Flag

Demo: Metadata Cleanup

- Classify
- Apply metadata

Demo: Governance Auditor

- Find issues
- Improve quality

Skills vs Power Automate

- Skills = Understand
- Power Automate = Move
- Use both together

Power Automate

When something happens, do this.

Trigger Based
Starts when an event occurs

Rules & Logic
Follows predefined steps and conditions

Structured Flow
If this, then that.
Always the same path.

Moves Data
Transfers, updates,
and coordinates data

Best when you know the process
and the outcome.

Power Automate = Deterministic
You define the steps.

vs.

SharePoint Skills = Intelligent
AI figures out the path.

SharePoint Skills

Look at this and figure it out.

AI Powered
Understands content
and context

Interprets & Infers
Uses AI to determine
meaning and intent

Dynamic & Flexible
Adapts to variation.
Handles complexity.

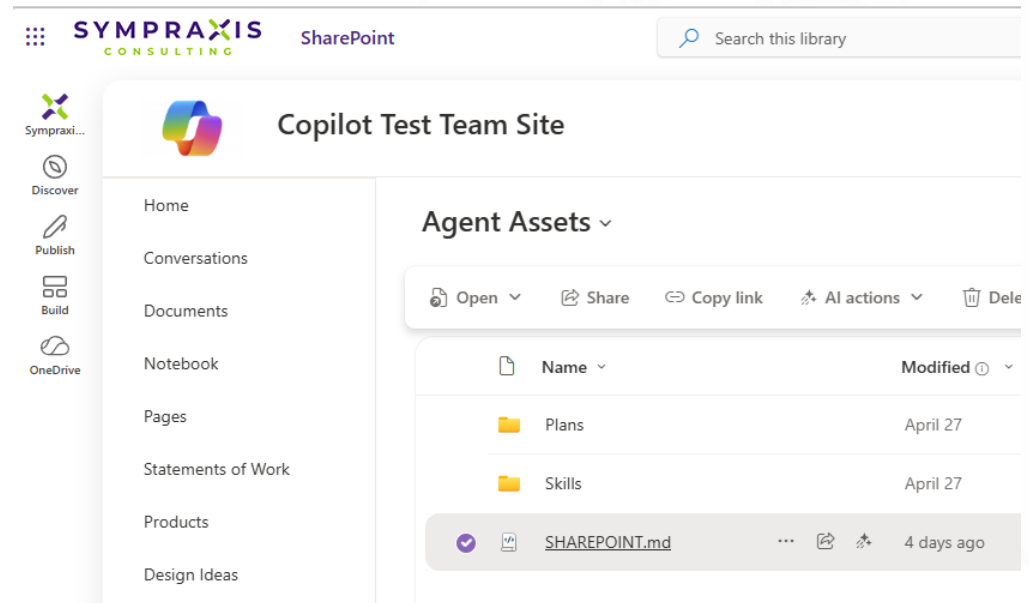

Extracts Insights
Finds, classifies, and
captures what matters

Best when you need AI
to understand and decide.

SHAREPOINT.md - Teaching AI Your Context

- Site level context
- Stored as Markdown file
- Chat and Skills use it
- Terminology
- Rules
- Tone
- Formatting preferences

Governance Matters

- Permissions
- Metadata
- Content quality

CHAOS IN GARBAGE IN

Unstructured content. Inconsistent metadata.
Hard to find. Hard to trust.

Name	Type	Modified	Owner
scan_2024_001.pdf	PDF	1/3/24	jdoe
Contract - final - use this one.docx	DOCX	2/17/24	jdoe
new agreement (1).pdf	PDF	3/2/24	amiller
AGREEMENT.doc	DOC	11/5/23	Bob
Signed_Contract_final_FINAL_v3.pdf	PDF	12/12/23	jdoe
contract (2).docx	DOCX	2/28/24	amiller
NDA.doc	DOC	6/18/23	jsmith
old_version_contract.pdf	PDF	7/7/23	Bob
-\$temp.docx	DOCX	3/5/24	jdoe
COPY_Contract.docx	DOCX	2/1/24	amiller

AI

- ⚠ Incomplete answers
- ⚠ Conflicting information
- ⚠ Missed context
- ⚠ Low confidence

ORDER IN BETTER OUTCOMES

Structured content. Consistent metadata.
Easy to find. Trustworthy. Actionable.

Name	Document Type	Modified	Owner
NDA - Acme Corp	NDA	3/12/24	jdoe
Master Services Agreement - Contoso	MSA	3/10/24	amiller
SOW - Contoso Project	SOW	3/8/24	jdoe
Change Order 01 - Contoso	Change Order	3/7/24	ree
Change Order 02 - Contoso	Change Order	3/7/24	ree
Invoice 2024-0301	Invoice	3/1/24	ap@contoso
Project Closeout Report	Report	2/28/24	ree
Milestone Log	Log	2/25/24	ree

AI

- ✓ Complete answers
- ✓ Consistent information
- ✓ Full context
- ✓ High confidence

Good governance today. Smarter AI tomorrow.

AI in SharePoint: Licensing & Admin Reality

Licensing

- Copilot (M365): per-user
- Chat, summaries, content

SharePoint Premium:

- Pay-as-you-go
- Autofill, extraction

Copilot reads

SharePoint Premium writes

Admin Setup

- Enable SharePoint Premium + Azure billing
- Target key libraries
- Create Autofill columns / Skills
- Define SHAREPOINT.md
- Validate permissions

Governance

- Oversharing risk
- Poor metadata = poor AI
- Inconsistent IA hurts answers
- Monitor usage & cost

You don't deploy AI in SharePoint...
You prepare SharePoint for AI.

What to Do Monday

- Build one Skill
- Create one Agent
- Clean one library
